

Full Access Frameless

SUTTON SANDSTONE

Sun-Kissed Neutral

A light and bright kitchen always seems to lift our moods while wood grains give us a warm sense of comfort. Sandstone brings both elements together but with a new contemporary color and light texture.

Sutton Sandstone combines the comfortable style of shaker with the modern, full-access function that has become popular in recent years. Utilizing contoured, traditional framing details with a beautiful weathered light wood graining.

SUTTON SANDSTONE CONSTRUCTION:

Full access, soft-close melamine shaker doors and drawer fronts, PVC edge-banding, soft-close Legrabox system.
