INSTALLATION NOTES & HOW TO'S

Removing Full Access Drawer Fronts

Instructions on how to remove a drawer front from Full Access drawer box.

1 Remove rectangle cover from inside the drawer. (do this on both sides of the drawer box)	**2** Lift black tab with a number 2 screw driver.	**3** Insert the screwdriver in the phillips socket behind the black tab.
4 Rotate screwdriver towards the back of the drawer. This will release the drawer front.	**5** After releasing the second clip the front can be gently slid away from the drawer box.
