## NATURAL (CLEAR) FINISH AGREEMENT

Natural (Clear) finishes will bring out the natural characteristics of hardwoods. There will be a wide range of tones throughout the products. Our face frames, cabinet doors and trim items that are made of hardwood will demonstrate this wide range of tonal variations.

Finishes are used that enhance the natural beauty of wood. Extra care is taken to assure a clean uniform finish using a clear conversion varnish. Like a fingerprint, characteristic differences in color and grain are produced by nature in every tree. These variations are what create the beauty in our hardwood products. These variations will cause variation in the finish, even though identical finishing processes are applied. Although we use a UV protected conversion varnish, hardwoods age and the color and characteristics will change. Clear coated hardwood species will darken or lighten with time. Furthermore, sunlight, smoke, household cleaners and other environmental conditions can also affect the color of the cabinetry in the same way.

**NOTE:** At RiverRun Cabinetry we offer two finished cabinet end options. **We suggest using Decorative Door Ends where cabinet ends are going to be exposed.** This will provide consistency amongst the products. Plywood finished ends tend to be more consistent in tone and grain pattern

**1- Near Flush Finished End:**

- a. We apply a 7 mm plywood panel to the unfinished cabinet end that is finished exactly how the cabinet doors and trim are finished. Plywood panels will not have the same tonal variations as solid hardwood. Therefore the plywood finished ends will be more consistent tonal wise than natural hardwood.

**2- Decorative Door End:**

- a. A decorative door end consists of a 7mm plywood panel applied to the finished side of the cabinet box and a decorative door applied over the finished end 7mm plywood panel. All of our cabinet doors, frames, hardwood trim and panels are finished with the same products and processes.

RiverRun Cabinetry will not replace clear/natural finished products under our manufacturers warranty for tonal color differences or grain patterns. Both are natural characteristics of the hardwood.

### Agreement

I have read and understand the finish agreement and the natural characteristics of wood. I understand that every component will be unique in its own natural way. I will not hold RiverRun Cabinetry responsible if these characteristics are present.
